# Introduction

Indian Register of Shipping is a non-profit entity founded in 1975, an international ship classification society providing ship classification and certification as well as technical inspection services. Over the years, IRClass progressed rapidly setting standards for safety, environment protection providing complete solutions for your requirements .

Indian Register Quality Systems worked from 1993 to support our Global customers for ISO Certification, Training and later became part of IRClass Systems and Solutions Pvt. Limited promoted by Indian Register of Shipping. Over 3 decades, Indian Register Quality Systems have expanded and now operates in a broad range of industries including Marine, Ports & Shipping, Automotive, Engineering, Food & Beverage, Healthcare, IT, Education, Chemical, Energy, Retail, Construction, Agriculture, Defence, Electronics, Oil & Gas, Pharmaceuticals, etc.

We help organizations improve performance in terms of Quality, Environment, Health & Safety, Food Safety, GHG (Green House Gases), Energy, Sustainability, Supply chain security and IT security management and strengthen brands. In addition, we also support clients to be efficient, methodical so that they can streamline systems improving results.

Over a period IRQS certified global clients across continents including United States, Europe, Russia, Asia including Middle East, South Asian Subcontinent, South East Asia, China, etc along with prestigious clients in India.

# Our Accreditations / Recognitions

IRQS is approved by United States, Europe and Indian accreditation bodies making it one of the certification body in India to have such wide range of approvals. IRQS is accredited by **NABCB (India)**, **ANAB (US)** and **RvA (Dutch)**. IRQS is recognised by **APEDA, IATF (GLOBAL), IRCA (GLOBAL), AYUSH and FSSAI recognised auditing agency**.

## IRQS pioneer in its accreditations:

# 1<sup>st</sup>

- Certification body in Asia accredited by Raad Voor Accreditatie (RvA).
- Certification body in Asia to get ANAB – US accreditation for ISO 28000 (SCSMS).
- Certification body to get NABCB - India accreditation for ISO 50001 (EnMS).
- Certification body to get ResponsibleSteel™ accreditation.

# IRClass Strengths

---

## ↳ Global Acceptance

- Accreditation from United States, Europe and India.
- All accreditation bodies are member signatories of IAF (International Accreditation Forum).

## ↳ Auditors

- 175+ auditors with minimum 10 years industrial sector specific experience and management systems knowledge.
- Auditing clients from different parts of the world and through global experience IRQS can share best practices during audit.
- Audit approach is practical as auditor techniques are calibrated to carry out fact-finding as opposed to fault finding method.

## ↳ Technical Knowledge

- 29+ years of experience across all sectors, We intend to partner with you for end-to-end solutions including ISO certification, Training, IT solutions, Testing Services & Process Improvement.

## ↳ Service Quality

- Renowned brands certified by us have been there with us for more than a decade demonstrating our commitment and quality of service.

# Our Key Clients

---

- Tata Steel Group
- JSW Group
- Dabur India
- Reliance Industries
- Mahindra & Mahindra
- Shapoorji Pallonji Group
- Lafarge India
- Tata Power
- Godrej Properties

# Certification

## ISO 9001 - QMS

Organization demonstrates its ability to consistently provide product meeting customer and applicable statutory and regulatory requirements. It defines good management system practices and aims at providing a global standard that spells out quality and trust.

## ISO 14001 - EMS

Addresses balance between maintaining profitability and reducing environmental impact. It specifies requirements to identify, control and monitor environmental aspects of organization, and how to manage and improve the whole system.

## ISO 45001 - OH&S

Applicable to organization that wishes to improve occupational health and safety by eliminating hazards and minimizing occupational health and safety risks.

## IMS

Common management systems intended to be used as a frame work for implementing two or more management system standards in an integrated way. You can minimize duplication and align your objectives reducing costs.

## ISO / IEC 27001 - ISMS

Manage and protect information assets and specifies requirement for safety control establishment. It ensures selection of adequate and proportionate security controls helping information protection.

## ISO 22000

Provides framework defining Food Safety requirements helping you manage legal obligation and commercial objectives. Provides systematic method for analysing food process, determining possible hazards designating critical control points.

## FSSC 22000

Internationally accepted certification scheme for food safety. Next logical step for ISO 22000 certified manufacturers wanting to upgrade their certification to a GFSI recognised Standard.

## AYUSH Mark

First product certification for Ayush Medicine (Ayurveda, Siddha, Unani, Homeopathy Products/Drugs). AYUSH Standard Mark based on Domestic regulatory (GMP) & AYUSH Premium Mark is based on International (WHO GMP) Guidelines/ Standards.

## ISO / IEC 27701 - PIMS

Lays out a set of operational checklists to be adapted to a variety of regulations, including GDPR. Helps companies maintain effective privacy and information security system reducing privacy risks.

\*\*All Accreditations are as of 1st September 2022.

\*\*Discuss with IRQS representative, regarding accredited scope sectors with IRQS of each standard.

# Certification

## ISO 50001 - EnMS

Helps implement processes necessary to understand energy usage. Put in place action plans, targets and energy performance indicators for reducing consumption and identify, prioritize, and record opportunities for improving energy performance.

## ISO 21001 - EOMS

Providing management tools for organizations offering educational products and services. It intends to help educational providers meet students' requirements and needs.

## ISO 13485 - MDQMS

Medical device industry's most widely used international standard for quality management. Effective solution to meet comprehensive requirements for Quality Management in the medical device industry.

## Coal Inspection & Testing

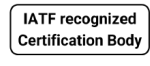

Utilized for characterization, commercial grading or assigning ranks and deciding utilization for different purposes. Properties of coal often form basis of sale contracts and coal price is based on analytical results

## ISO 28000 - SCSMS

Addressing requirements of Security Management System (SMS) for supply chain. It specifies aspects to help organizations assess security threats and to manage them as they arise in their supply chain.

## IATF 16949

Automotive QMS aligns existing US, German, French and Italian automotive quality system standards within global automotive industry. Relevant to all type of automotive supply companies, design /development, production from small manufacturers to Multinational organizations.

## ResponsibleSteel™

Industry's first global multi-stakeholder standard and certification programme, aiming to maximise steel's contribution to a sustainable society. Implementation assures producers meet customers sustainability needs through responsible sourcing and reducing ESG risks.

- ISO 17025 (Laboratory Accreditation Training for Quality Management)
- Six Sigma, TQM (Total Quality Management)
- Fire Safety / First Aid

# Testing

IRClass Systems and Solutions Pvt Ltd (ISSPL) Laboratory in Jaipur is one of the leading analytical testing service providers in India. We are recognized as the most reliable quality and safety testing service provider for Food, Pharmaceuticals, Ayush and Environment

- **ACQUISITION** : Acquired CEG Test House at Jaipur in Feb'22.
- **FACILITY** : 14000 Sq. ft. Wet Chemistry, Trace Analysis, Mechanical & Microbiology Lab
- **METHOD** : Use standard method, in house method, and Customer protocol
- **RESOURCES**: Total 50 scientists, samplers, managers and supporting staffs
- **MAJOR EQUIPMENT** : LC-MS/MS, GC-MS/MS, ICP-MS, HPLC, GC, IC, FT-IR etc
- **ACCREDITATION/APPROVAL** : NABL/ISO 17025, FSSAI, EIC, APEDA, CPCB
- **SAMPLING**: PAN INDIA sampling collection facility and branch Labs

## FOOD TESTING SERVICE

- Nutritional Analysis & Microbiological
- Pesticide & Antibiotics Residues
- Heavy Metal
- Mycotoxin Analysis
- NOTs & Packaging Material Testing
- Shelf Life and Stability Studies

## WATER TESTING SERVICE

- Organoleptic
- Physico chemical analysis
- Heavy metal
- PAH, PCBs, THM & VOCs
- Pesticide residue analysis
- Microbiological analysis

## PHARMACEUTICAL TESTING SERVICES

- Analytical Chemistry & Microbiology
- Method Development and Validation Projects
- Identification by UV, HPLC, FTIR, ICP, LC-MS/MS
- Assay, Related Substance/Impurity
- Stability Study
- Extractable and Leachable

## AYUSH TESTING SERVICES

- Physio-Chemical Parameters
- Nutritional Labelling
- Heavy Metals, Pesticide Residues and VOCs
- Microbiological Testing
- Stability Studies
- Method Validation

## ENVIRONMENT TESTING SERVICES

- Ambient Air Quality Monitoring
- Waste Water and Sludge Analysis
- Compliance Monitoring & Baseline Study
- Clean Room Validation
- Indoor Air Quality Testing
- Due Diligence Study

- Soil Testing
- Stack Emission Monitoring
- Industrial Hygiene Study
- Performance Guarantee Test
- Energy Efficiency & Sustainability
- Verification/validation of CO2 emissions
- Electrical Safety audit
